Open to work (full-time or contract) | GMT+7 | remote, hybrid or on-site

I build and ship production SaaS with Next.js, TypeScript and PostgreSQL. Project Lead Developer at Star Generation, and building BrokerID, a property platform used by 500+ agents across Indonesia.

EXPERIENCE

Star Generation - Project Lead Developer

Jun 2026 - Present

Full time | Tangerang, Indonesia | on-site

- Took the v2 platform from planning to launch, owning the delivery plan, test cases and environments.
- Ran launch readiness and shipped v2 to production as the company platform.
- Leads maintenance of v2 in production, triaging issues and deciding what ships each release.

BrokerID - Co-Founder & CTO

Jun 2025 - Present

Own venture | Tangerang, Indonesia

- Built and scaled a property platform to 500+ agents, solo-owning the full stack and infrastructure.
- Shipped iOS and Android apps with React Native and Expo, live on the App Store and Google Play.
- Designed the PostgreSQL schema, auth and real-time sync on Supabase behind a Next.js web platform.

Star Generation - Fullstack Developer

Jun 2025 - May 2026

Full time | Tangerang, Indonesia | on-site

- Led architecture and delivery of the v2 dashboard on Next.js, TypeScript and Supabase.
- Redesigned the legacy platform architecture and entity model to remove scaling bottlenecks.
- Built a phased migration roadmap that retires technical debt without a risky cutover.

Panin Dai-ichi Life - IT Application Developer

Oct 2023 - Jun 2025

Full time | Jakarta, Indonesia | hybrid

- Resolved 95% of the critical bug backlog in a production mobile app and integrated SQLCipher for encrypted storage.
- Delivered and supported three Spring Boot applications against SQL Server and internal REST APIs.
- Added 4+ features to an Ionic Angular app with Firebase and REST real-time sync, improving reported UX 25%.

PT Central Artificial Intelligence - Mobile Developer

Aug 2022 - Dec 2022

Internship | Depok, Indonesia | remote

- Built a React Native POS product in five months, lifting daily transactions 20% for 100+ retail clients.
- Led three mobile developers, improving team productivity 15% through task management.
- Shipped 20+ application interfaces from UI/UX mock-ups.
